The FPDS User's Manual and Data Dictionary were developed to familiarize users with FPDS data requirements and assist them with FPDS data entry. They are not intended to serve as a substitute for the Federal Acquisition Regulation, Defense Federal Acquisition Regulation Supplement, or Department/Agency procedures. They do not relieve FPDS users from reviewing these regulations and procedures which form the basis and set the context for FPDS data entry requirements. If an FPDS user has questions regarding how a particular procurement was conducted, he/she should discuss them with the servicing contracting officer or procurement policy officials prior to attempting to enter data into FPDS.

Information entered FPDS is post-award information. Contract formation or pre-award decisions and actions, such as the type of contract to be used, applicability of certain statutes, extent of competition, must be concluded prior to contract award and therefore, prior to FPDS data entry. FPDS is designed to capture and summarize a variety of information on pre-award decisions and actions after the fact. This manual is not intended to guide contracting personnel's pre-award decisions which are directed by regulation and procedure.

Limitation on Permissible Use of Dun & Bradstreet, Inc. (D&B) Data: This website contains data supplied by third party information suppliers, one of which is D&B. For the purposes of the following limitation on permissible use of D&B data, which includes each entity's DUNS Number and its associated business information, "D&B Open Data" is defined as the following data elements: Business Name, Street Address, City Name, State/Province Name, Country Name, County Code, State/Province Code, State/Province Abbreviation, ZIP/Postal Code, Country Name and Country Code.

D&B hereby grants you, the user, a license for a limited, non-exclusive right to use D&B Open Data within the limitations set forth herein. By using this website you agree that you shall not use D&B Open Data without giving written attribution to the source of such data (i.e., D&B) and shall not access, use or disseminate D&B Open Data in bulk, (i.e., in amounts sufficient for use as an original source or as a substitute for the product and/or service being licensed hereunder).

Except for data elements identified above as D&B Open Data, under no circumstances are you authorized to use any other D&B data for commercial, resale or marketing purposes (e.g., identifying, quantifying, segmenting and/or analyzing customers and prospective customers). Systematic access (electronic harvesting) or extraction of content from the website, including the use of "bots" or "spiders", is prohibited. Federal government entities are authorized to use the D&B data for purposes of acquisition as defined in FAR 2.101 and for the purpose of managing Federal awards, including sub-awards, or reporting Federal award information.

GSA assumes no liability for the use of the D&B data once it is downloaded or accessed. The D&B data is provided "as is" without warranty of any kind. The D&B data is the intellectual property of D&B. In no event will D&B or any third-party information supplier be liable in any way with regard to the use of the D&B data. 1. SCOPE

The Office of Federal Procurement Policy, as amended, 41 U.S.C. 401 et seq. and (FAR Subpart 4.6) requires the Administrator for Federal Procurement Policy to establish a computer-based Federal Procurement Data System for collecting, developing and disseminating procurement data to the Congress, Executive Branch and private sector. The Federal Procurement Data System Program Management Office (FPDS PMO) within the Office of the Integrated Acquisition Environment (IAE) oversees the operation of the Federal Procurement Data System Next Generation (FPDS). The General Services Administration's (GSA) contractor operates and maintains the FPDS.

Executive departments and agencies are responsible for collecting and reporting data to FPDS as required by the Federal Acquisition Regulation (FAR). The Federal Government uses the reported data to measure and assess the impact of Federal procurement on the nation's economy, the extent to which awards are made to businesses in the various socio-economic categories, the impact of full and open competition on the acquisition process and other procurement policy purposes.

FPDS contains data that the Federal Government uses to create recurring and special reports to the President, the Congress, the Government Accountability Office, Federal executive agencies and the general public.

The Office of Federal Procurement Policy (OFPP) requires that each Department and Agency certify annually that all data within FPDS is valid and complete.

1.1 RESPONSIBILITIES

1.1.1 EXECUTIVE AGENCIES

Executive agencies must establish an agency point of contact to handle FPDS agency specific issues. Agency FPDS points of contact represent the agency on the FPDS Change Control Board (CCB).

Contracting offices must submit complete and accurate data on contract actions to FPDS within thirty (30) workdays after contract award. (FAR 4.604(3))

The agency system administrator determines the users' privileges, including the contract writing system (CWS) privileges. Assignment of these privileges is NOT the responsibility of the FPDS contractor or GSA.

Users will refer FPDS design issues to the agency system administrator who will forward the appropriate IAE Change Request Form to the CCB for resolution.

Executive agencies will not direct any work to be done by the FPDS contractor. Only GSA has this authority.

1.1.2 GENERAL SERVICES ADMINISTRATION(GSA)

GSA hosts and chairs the Change Control Board (CCB). GSA's FPDS Program Manager directs the activities of the contractor as they relate to modifications to the system.

1.1.3 CHANGE CONTROL BOARD (CCB)

The FPDS CCB serves as the primary communication liaison to the agencies and is ultimately responsible for tracking all approved changes to the FPDS. The CCB proposes and reviews configuration items required to keep the FPDS database current with Federal requirements.

1.2 SUPPLEMENTAL INSTRUCTIONS

See Agency supplements for Agency specific instructions.

2. INTRODUCTION TO DATA ENTRY

2.1 DATA ACCURACY, INTEGRITY and TIMELINESS

To reiterate the importance of accuracy, integrity and timeliness of reporting to FPDS-NG, the system contains data that the Federal Government uses to create recurring and special reports to the President, Congress, Government Accountability Office, Federal executive agencies, and the general public. The data is also used to populate the USAspending.gov website in accordance with the Federal Funding Accountability and Transparency Act. Therefore, it is extremely important that data contained in FPDS is accurate, complete, and submitted in a timely manner. Data that passes validation rules is not necessarily accurate. As an example, NAICS 111110 is Soybean farming. While this code will pass all validations, there is a good chance that this is not what you are buying. It is incumbent on the Contracting Officers and Agencies to assure the accuracy of all information submitted. In order to ensure timeliness and up-to-date information within the system, contracting officers must submit complete and accurate data on all required contract actions in accordance with FAR [4.604](#).

2.2 METHODS OF REPORTING

There are two methods of reporting to FPDS: Web Portal and Contract Writing Systems (CWS). The information provided in this document is based on Web Portal access. If you are reporting via CWS, you may not see the main navigation screen.

2.2.1 ACTION REPORTING

FPDS makes a distinction between types and methods of contracting. Within this document, the titles for classes of Awards and IDV are:

- Award – A contractual vehicle that cannot have orders placed against it.
- Basic IDV – The basic award that allows you to place orders in accordance with the terms and conditions of the basic IDV.

2.2.2 REPORTABLE ACTIONS

Agencies will report on all contract actions using appropriated funds as specified in FAR 4.606. AbilityOne (formerly JWOD Nonprofit Agency or Sheltered Workshop awards) and UNICOR (Federal Prison Industries) awards are reportable as they are not interagency agreements.

Below is a partial list of types of awards reportable to FPDS. See FAR 4.606 for the full list. Agencies will report unclassified information on all contract actions using appropriated funds including, but not limited to, those made:

- Definitive contracts, including purchase orders and impress fund buys over the micro-purchase threshold awarded by a contracting officer.
- Indefinite delivery vehicle (identified as an “IDV” in FPDS). Examples of IDVs include the following:
- Task and Delivery Order Contracts (see [subpart 16.5](#)), including—
 - Government-wide acquisition contracts.
 - Multi-agency contracts.
- GSA Federal supply schedules.
- Blanket Purchase Agreements (see [13.303](#)).
- Basic Ordering Agreements (see [16.703](#)).
- Any other agreement or contract against which individual orders or purchases may be placed.

All calls and orders awarded under the indefinite delivery vehicles identified in the following:

- With appropriated funds transferred from one executive agency to another where the servicing agency contracts for the supplies or services; □
- With appropriated funds obligated pursuant to the provisions of PL 85-804; □
- By one agency for another; □
- For supplies and equipment; □
- For construction, alteration or maintenance of real property; □
- For services, including research and development and Utilities; □
- AbilityOne (formerly JWOD Nonprofit Agency or Sheltered Workshop awards); □
- Telecommunications from regulated carriers; and □
- Federal Prison Industries, i.e. UNICOR awards (orders from GSA stock for UNICOR products are not reportable); □
- Agencies will report all contract actions made with funds held in trust accounts for foreign governments or procurements for foreign governments regardless of the nature of the funds. (The term “foreign governments include international organizations.) □

2.2.3 NON-REPORTABLE ACTIONS

Agencies shall not report:

- Financial assistance actions e.g. grants, cooperative agreements, subsidies, and contributions except for those Agencies who have a special module to accumulate information on these types of actions.
- Imprest fund transactions, SF 44 purchases, training authorizations, and micro-purchases obtained through the use of the government purchase card. The term “micro-purchase” has the same meaning as set forth in FAR 2.101.
- Interagency agreements with other federal agencies (e.g. Tennessee Valley Authority), independent federal establishments (e.g. Export/Import Bank of the US), or federally chartered sources (e.g. Howard University or the Smithsonian Institution).
- Actions involving transfer of supplies within and among agencies and sub-agencies.
- Orders from GSA Stock and GSA Consolidated Purchase Program.

- Additionally, civilian agencies will not report actions for petroleum or petroleum products ordered against a Defense Logistics Agency (DLA) Indefinite Delivery Contract as the funds are reported by DLA.

2.3 ACCESS LEVEL

To enter data into FPDS, your access level is determined by Agency System Administrators or Contract Writing System Administrators and you may not have access to all to the available features. Users entering data through the contract writing system (CWS) will not see the FPDS Main Navigation Screen shown in Figure 1. Accounts will become inactive if not accessed within 90 days, or after 5 unsuccessful logon attempts. If your account is de-activated, contact your Agency System Administrator; the FPDS Help Desk cannot re-activate user accounts.

Figure 1. Main Navigation Screen

2.4 AWARDS COLUMN

The awards column consists of the following types of actions:

- Delivery/Task Order against IDV - an order for supplies placed against an established contract or with Government sources.
- Purchase Order – an offer by the Government to buy supplies or services, including construction and research and development, upon specified terms and conditions, using simplified acquisition procedures.

- Definitive Contract - a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. For purposes of data collection in FPDS, it includes all types of commitments that obligate the Government to an expenditure of appropriated funds except purchase orders, delivery orders and BPA Calls. Data on these types of awards are collected separately. Contracts do not include grants and cooperative agreements covered by 31 U.S.C. 6301, et seq.
- BPA Call – A purchase under a Blanket Purchase Agreement that does not exceed the simplified acquisition threshold unless otherwise specified by your agency.

2.5 BASIC IDVCOLUMN

A Basic IDV is a contract/agreement awarded to one or more vendors to facilitate the delivery of supply and service orders. The only types of awards which may have orders placed against them are Federal Supply Schedule, GWAC, BOA, BPA, and IDC. Refer to FAR Parts 8, 13 and 16 to determine the type of IDV.

Use this column when entering the following type of document:

- FSS (Federal Supply Schedule) – The creation of ‘Schedules’ is restricted to creating this type of awards by GSA and VA only.

2.6 TRANSACTION/MODIFICATIONS COLUMN

Use this column when selecting a contract action report to correct or modify. By using

Advanced Search  (see the Advanced Search section 2.10) capability at the top of the screen, you can also perform these functions. To perform any of these functions, you must have a PIID (Procurement Instrument Identifier).

- Correction – To fix a mistake in a record that is in final status. It should be noted that the correction should not change the legal intent of the contract action. You can only use this function when a contract action report is in final status.
- Modifications – Use modifications to report information on a document where the legal intent of the contract has changed. To report modifications to an existing Award/IDV document; the base document must already be in final status in FPDS-NG.

2.7 SYSTEM ADMINISTRATION COLUMN

Your Department/Agency System Administrator controls access to these functions. The FPDS contractor maintains control of the reference tables for Product and Service Codes (PSCs), North American Industry Classification System (NAICS) codes, Department, Agency and Location Codes under their respective Federal Information Processing Standards (FIPS) directory and Special Publication 800-87-Revision 1a. Contact your System Administrator if you need assistance in this area.

2.8 ACCESSING FPDS DATA

There are two methods for retrieving data from FPDS: ezSearch and Interagency Contract Directory (ICD). Additional information is available in Section 8.

2.9 USER’S AWARDS AND IDVINBOX

At the bottom of the Main Menu screen you will notice that there are two inboxes (Figure 2). One will contain the information on your awards and the other will be for your IDVs.

Figure 2. Users Award and IDV Inbox

The following is an explanation of the terms used within the Awards and IDV inboxes:

- Draft Awards – Number of records that have been saved in draft that may or may not have been validated and are awaiting approval.
- Final Awards - Number of records the user has in FinalStatus.
- Error Awards – Number of records that are missing required information.
- Template Awards – Users can create a template which contains the majority of the data elements needed to be reported. The user can open the template and complete the fields that are unique to the action being reported. This will eliminate the re-keying of elements that are identical for multiple records. Agencies are responsible for maintaining templates they create.
- Transfer Awards – Identifies the number of records that are waiting for acceptance by the receiving Agency

2.10 ADVANCED SEARCH

Contracts are reported in FPDS in real time under two categories: Award and IDV (Indefinite Delivery Vehicle). The Advanced Search feature allows you to perform complex searches for an Award or IDV by using several criteria. Advanced Search produces search results based on fields on the Award and IDV documents. After using Advanced Search, the Search Results screen displays a link for each document that matches the search criteria. To conveniently access these reported contracts, click the link. This allows you to access and view any reported contract that is available in FPDS. This includes records in final, draft, void and error status.

2.10.1 ACCESSING ADVANCEDSEARCH

Advanced Search is located at the top of the screen. Use the following steps to access the Advanced Search function.

Click  at the top of the FPDS main screen as shown:

Figure 3. FPDS Main Menu

The Advanced Search screen is shown below. To use Advanced Search, you must enter information in at least one or more fields; for example, PIID, Vendor Name, and/or Prepared By (User ID). The Agency ID (Agency ID) field is auto-populated based on user ID.

If you are looking for documents belonging to another agency, enter the appropriate Agency ID, such as 4700 (GSA). If you are unsure of the Agency ID use  to find the ID or leave this field blank.

Enter the PIID or part of the PIID (at least five characters—or four with a wildcard %) to find a document matching the information in the Agency ID and PIID.

- The Status does not need to be selected as a search criteria for final and draft records. However, if you need to search for records in error or voided records you need to select the appropriate status.
- Select Award as the Award/IDV Type to narrow the search by the type of documents you want to view.

Once the search criteria information is entered in the Advanced Search screen, select . The following Advanced Search screen displays this information. The Advanced Search will generate links to documents that match the criteria you enter. The following screen displays the links matching the search criteria.

2.11 SEARCH RULES

2.11.1 WILDCARD

The Advanced Search fields allow you to use a wildcard. The percent sign (%) is the wildcard character that you may use in the data entry fields. You can place the wildcard in the middle or end of a data string in any of the fields on the Advanced Search screen. For example, you can enter a wildcard after entering the first part of the data string. When a user enters "COM%" in a data field, the search will return anything that starts with "COM", such as Company, Complete, and Composition. If you use a wildcard while searching for a document, it can be used for Agency ID, PIID, or Prepared By (User ID). You will still need to enter the minimum number of characters for the respective field according to the rules as defined in this section.

2.11.2 DATA ENTRY

The more information you enter in the Advanced Search, the faster your search will return results. Additionally, entering as much information as possible will limit the number of records returned, which will make your search more efficient.

2.11.3 FIELD RULES

The following figure shows the fields of the Advanced Search screen numbered from 1 through 18. Each numbered field is described in a respective section following the figure.

Figure 7. Numbered Document Search Criteria Screen

Field 1: Award ID

This element is composed of three fields used to identify each reported contract as a unique document in FPDS. The fields are:

- AGY ID
- PIID
- Mod No.

You must enter information in at least one of the following fields:

- Agency ID
- PIID
- Prepared By (User ID)

Field 2: Agency ID (Agency ID)

To use this field you must enter at least 2 characters of the agency code plus the % (wildcard). The maximum length of this field is 4 characters. If you do not know the four character code for an agency, click  to use a pick list.

Field 3: PIID (Procurement Instrument Identifier)

This field is a unique identifier for each contract, agreement, or order in FPDS. To search on this field, enter at least 4 characters plus the % wildcard. The maximum length of the PIID is 35 characters. For example, if you know the PIID has the characters GS01P11BWC%, you can add the % to assist in the search. The Advanced Search screen displayed in the following figure has the characters GS01P11BWC% in the PIID field. The example also shows the Agency ID as 97AS.

Notice that the search returned 4 documents matching the entered criteria. To return fewer documents, use more search fields or a date range on the search criteria screen.

Field 4: Mod umber:

You can use a Mod number in conjunction with a PIID to find a specific document. The Mod number can be alphanumeric. For any given PIID, the Mod number must be unique. The maximum number of characters that you can enter in this field is 25.

Field 5: Referenced IDV (Indefinite Delivery Vehicle) ID

By entering a Referenced IDV PIID in this field, the system will return a list of all task/delivery orders placed against the contract.

Field 6: Prepared By (User ID)

FPDS populates the Prepared By field with the user ID of the person logged in when a new document is created. To search for documents prepared by an individual, type their user ID in this field. There is no minimum constraint on this field. The maximum length of this field is 28 characters.

Field 7: Contracting Office ID

Contracting Office ID is a variable code not to exceed 6 characters. You can use this office code to find documents in much the same way as you use the Agency ID code. If you do not know this code, use  to look up the contracting office byname.

Field 8: Contracting Office Name

This information is automatically filled in based on the Contracting Office Code selected.

Field 9: Vendor Name

You must enter at least 3 characters in this field. The maximum length of this field is 80 characters. The FPDS vendor table contains only vendors that have registered in the System for Award Management (SAM). If you are not sure how the Vendor Name will appear in FPDS, use  to access a Vendor picklist.

Field 10: NAICS Code (North American Industry Classification System)

Use this field to look up awards for a specific NAICS code. If you are not sure of the NAICS, use  to access a look up table for NAICS.

Field 11: Funding Agency ID

This is the code for the agency that provided the funding for this transaction.

Field 12: Funding Office ID

This is the code provided by the funding agency that identifies the office or other organizational entity that provided the funds for this transaction. If the Funding Agency is not DoD, the code must be valid in the contracting/funding office table. If the Funding Agency is DoD, the code must be valid in the DoD Activity Address Code (DODAAC) table. This is a required field on all actions.

Field 13: Status

The Status field defaults to Final. Draft, Error or Void records can be obtained by selecting the appropriate status from the drop down list.

Field 14: Award/Indefinite Delivery Vehicle Type

This field defaults to Award. Types of awards include: Purchase Orders (PO), Delivery Orders (DO), BPA Calls, and Definitive Contracts. Types of IDVs include: Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA). There are seven areas within the Home Logon screen:

3.1 LOGIN

You will be presented with a 'Login' button which upon clicking will redirect you to the Login.gov sign-on page that will ask for your [Login.gov](https://www.login.gov) username and password. Upon entering a valid username/password combination, you are then taken to the 2-factor authentication code entry page. After entering a valid authentication code generated from the chosen authentication method, you will be redirected to the FPDS Main Navigation Screens and your authenticated user session will begin.

Government user accounts not used within a 90 day period will become inactive. The FPDS Support Desk cannot re-activate user's accounts. If you have not accessed FPDS for 90 days or more, you will have to contact your Agency FPDS System Administrator to reactivate your account.

If you are accessing FPDS through your Contract Writing System (CWS), you will not be logging in as described above. Once you are in your CWS there will be an option that interfaces with the FPDS and you will not see the Logon Screen. When this interface function is selected, you will be taken directly into the FPDS Main Navigation Screen as shown in Figure 1.

If the user enters an incorrect password on Login.gov, users will be able to reset their password using the password reset link displayed after an invalid login attempt.

3.2 FREQUENTLY ASKED QUESTIONS

This section contains Frequently Asked Questions on the FPDS and the ezSearch query function.

3.3 LINKS

This section provides users access to referential data that may assist in using FPDS or answering questions that are outside the realm of the Frequently Asked Questions.

4. AWARDS

Figure 14. Function Buttons

 – Creates a new entry screen for the Award section.

 – Saves the information in your document. Use this when you report data in the system, whether complete or in part. If you have made changes to

the action, please hit the Save Draft button before validating or closing the action. This process will ensure that your data will not be lost.

Validate – Determines if there are any errors. Use this when the record is complete. If there are errors, the screen will display error messages at the top of the document. All fields in error status are shown in Red and must be corrected in order to Validate and Approve the action.

Approve – Allows you to Approve the document. Use this when the document is error free. The record will then be in final status.

Correct – Allows you to fix mistakes in FPDS that do not change the legal intent of the contract action. You can only use this function when a contract action is in final status. The Data Dictionary Use Cases refer to Correct type actions as ‘Change’.

Modify – Allows you to prepare a modification to a base record. This button is on the header of your entry screen. You can also use the Modification selection from the main menu under Transactions/Modifications.

Save Tmpl – Allows you to prepare a document to be used as a template for recurring awards. Templates are created to allow you to quickly complete additional records using the same basic contract information.

Delete – Allows you to Delete a record entirely from the system. Nothing is saved in FPDS. However, the PIID may be re-used. FPDS will not allow the user to delete a base record if there are modifications or orders against it.

Print – Allows you to print the document that is currently on the screen.

Close Out - The Close Out button allows the user to close out a contract family. The function will also be available in GUI Services and the Web Portal.

Exit – The user Exit the current document without saving. The user will see a dialog box asking if the document should be saved.

Help – Provides the user on-line help that includes a glossary. You can also access the help by clicking the Help button at the top right corner of the main FPDS screen.

NOTE: The Void functionality has been deprecated from FPDS as of July 10, 2009.

4.1 AWARDS COLUMN

An award is a contractual vehicle that cannot have orders placed against it. Use this column when entering the following types of documents: Delivery/Task Order, Purchase Order, Definitive Contract and BPA Call. Awards are accessed via the Navigation screen of the FPDS system as shown in the Awards module. This allows the user to add and modify awards. Awards are divided into four types. See Section 2.4 for definitions.

4.1.2 DOCUMENT INFORMATION

Figure 16. Document Information

4.1.2.1 AWARD ID

Consists of the Agency [code], Procurement Instrument Identifier, and Modification Number and the Transaction Number as described below

4.1.2.2 AGENCY (Data Dictionary Element 1F)

This data element is required for all awards, Modifications, Changes and Delete for both DoD and Civilian agencies. This field is automatically populated based on the user's profile information.

4.1.2.3 PIID (PROCUREMENT INSTRUMENT IDENTIFIER) (Data Dictionary Element 1A)

As defined in FAR 4.605(a) this data element is required for all Awards, Modifications, Changes or Delete for both DoD and Civilian Agencies. Enter the unique PIID that identifies your award. The PIID is the contract or order number. See Data Dictionary Element 1A Use Case for appropriate data entry requirements.

NOTE: Effective April 1, 2018, the PIID Structure was changed to comply with the Uniform PIID Structure (FAR Subpart 4.16). The PIID structure is shown below. This is for Civilian Agencies only.

- Positions 1 through 6 will be required to match the Contracting Office ID (AAC).
- Positions 7 through 8 will be required to match the Fiscal Year of the Date Signed.
- Position 9 will designate the type of instrument.
- Positions 10 through 17 will be assigned by the Agency.

4.1.2.4 MODIFICATION NUMBER (Data Dictionary Element 1B)

Enter a Modification Number in accordance with your agency's policy, when reporting modifications to contracts, agreements, or orders. This number must be unique for any given PIID. This is a required field for all modifications. See Data Dictionary Element 1B Use Case for appropriate data entry requirements.

NOTE: Effective April 1, 2018, Modification Number Structure was changed to comply with the Uniform PIID Structure (FAR Subpart 4.16). The Modification structure is

shown below. This is for Civilian agencies.

The Modification must begin with an (A) or a (P) and must be six characters. The letter A is to be used for Modifications issued by the Contract Administration Office (If other than the procuring office). The letter P is designated for Modifications issued by the procuring office.

4.1.2.5 TRANSACTION NUMBER (Data Dictionary Element 1D)

This data element is not required for Civilian Agencies. It is required for DoD when completing multiple reports on a single contract action in the limited cases identified in the DFARS where this is required (e.g., actions combining foreign military sales and non-foreign military sales). It is not required for a Change, Modification or Delete for DoD. See Data Dictionary Element 1D Use Case for appropriate data entry requirements.

4.1.2.6 REFERENCED IDV ID (Data Dictionary Elements 1C, 1G and 1H)

This data element is required for all Delivery/Task orders and BPA calls. It is not required for a DCA, Purchase Order, and a Modification. Enter the contract or agreement number of the IDV against which your order is placed. FPDS allows for up to 50 characters. This data element consists of three parts: The Referenced IDV agency identifier, Referenced IDV PIID and the Referenced IDV Modification Number. See Data Dictionary Element 1C, 1G and 1H Use Case for appropriate data entry requirements.

4.1.2.7 REASON FOR MODIFICATION (Data Dictionary Element 12C)

This field will only be available when performing a modification to an existing contract. Select the appropriate entry from the drop down menu. See Data Dictionary Element 12C Use Case for appropriate data entry requirements.

NOTE: When a modification changes the vendor information, you must select one of the Vendor Change modifications (e.g., Novation Agreement, Rerepresentation, Vendor Address Change, etc.). Otherwise, the system will not change the vendor information on a Modification. 'Transfer Action' requires your account to have the 'Transfer' privilege. Rerepresentation reasons should be used when a contract modification exercises an option and the vendor socioeconomic status has changed. For example, a contract was awarded to an 8(a) firm five years ago, the firm graduated from the program three years after award. When the modification is issued to exercise an option, the Rerepresentation is required to change the vendor credits associated with the award. From that point in time forward, the vendor will no longer show as an 8(a) vendor in FPDS. If you are only changing the Vendor Address the Vendor Address Change should be used.

The following are additional instructions for these specific Reasons for Modification:

- (1) Use the Termination for Default (complete or partial) value to report Termination for Cause actions on contracts for commercial items;
- (2) Use the Transfer Action value to transfer the "ownership" of a contract to a new contract office. Transfer Action is not to be used when only delegating contract administration subject to FAR Subpart 42.2. Follow the instructions in Appendix E for reporting these transactions;
- (3) Follow the instructions in Appendix C for reporting Novation Agreements, Rerepresentations, and Rerepresentations of Non-Novated Mergers/Acquisitions.

Short descriptions for the entries are as follows:

Code	Short Description	Code	Short Description
------	-------------------	------	-------------------

A	Additional Work ((New Agreement, Justification Required)
B	Supplemental Agreement for work within scope
C	Funding Only Action
D	Change Order
E	Terminate for Default (complete or partial)
F	Terminate for Convenience (complete or partial)
G	Exercise an Option
H	Definitize Letter Contract
J	Novation Agreement
K	Close Out
L	Definitize Change Order
M	Other Administrative Action
N	Legal Contract Cancellation
P	Rerepresentation of Non-Novated Merger/Acquisition
R	Rerepresentation
S	Change PIID
T	Transfer Action
V	Vendor DUNS or Name Change - Non-Novation
W	Vendor Address Change
X	Terminate for Cause
Y	Add Subcontracting Plan

4.1.2.8 SOLICITATION ID(DATA DICTIONARY ELEMENT 1E)

The data element is optional for all Awards for both DoD and Civilian and populates on Modifications. However, it is now required if the Data Element “FedBizOpps” is ‘Yes’. See Data Dictionary Element 1E Use Case for appropriate data entry requirements.

4.1.2.9 TREASURY ACCOUNT SYSTEM (TAS)(Data Dictionary Data Element 6SG thru 6SI)

The data element is required if the Action Obligation is more than or less than zero (\$0.00).

(6SG) - The data element “Treasury Account Symbol Main Account” is required on all documents if the Action Obligation is more than or less than zero ‘\$0.00’. It is required on all American Recovery and Reinvestment Act actions irrespective of the Action Obligation. If you do not know your Treasury Account Symbol (TAS) please contact your budget\finance office.

This data element is now Optional regardless of the Action Obligation amount or if the American Recovery and Reinvestment Act is selected as the Initiative. This instruction will apply on actions with a “Date Signed” on or later than June 25, 2016.

(6SH) - The data element “Treasury Account Symbol Sub Account” is required when the only entry for that Agency and Main Account includes a Sub Account.

(6SI) - The data element “Treasury Account Symbol Initiative” has a drop down with ‘American Recovery and Reinvestment Act’ as the only value that can be selected. If this action is not ‘American Recovery and Reinvestment Act’ leave it as ‘Select One’. Through Business Services, the users can send only ‘ARRA’ in the ‘initiative’ XML tag.

The Treasury Account Symbol (consisting of Agency Identifier, Main Account Code and Sub Account Code) has to be valid.

This data element is also used to identify if the funds were part of the American Recovery and Reinvestment Act. If you do not know your Treasury Account Symbol (TAS) please contact your budget\finance office.

Note: If you are trying to update the “Initiative” or “Treasury Account Symbol” fields through Business Services using the ‘update’ or ‘correct’ request; send all the values for each of the following within 'listOfTreasuryAccounts' XML tag: "Treasury Account Symbol Agency Identifier", "Main Account Code", "Sub Account Code", and "Initiative".

NOTE: As of June 28, 2019, the Treasury Account Symbol fields will be Not Applicable and will be grayed out. That includes all three parts: The Agency Identifier (2 characters); the Main Accounts (4 characters); and a Sub Account (3 characters).

As of June 28, 2019. The Initiative field will be Not Applicable and will be grayed out.

4.2.1 DATE SIGNED (Data Dictionary Element 2A)

This data element is required for all Awards and Modifications for both Civilian Agencies and DoD. The date signed is when a mutually binding agreement is reached as specified below:

- For funded actions, the date signed is the date funds were obligated.
- For awards that will be funded at a future date, the award date is the date signed by the contracting officer.
- For basic agreements or IDVs, for which there is no funding on the basic document, the award date is the date mutually agreed upon by the contracting officer and the contractors.

4.2.2 Period of Performance Start Date (Data Dictionary Element 2B)

This data element is required for all Awards and propagates to all Modifications for both Civilian Agencies and DoD. This is the date that the Period of Performance starts. This can be the same date as the Date Signed or later. Apply agency rules regarding Period of Performance Start Date and Date Signed. See Data Dictionary Element 2B Use Case for appropriate data entry requirements.

4.2.3 SOLICITATION DATE (Data Dictionary Element 2H)

This data element is optional for all Awards and IDV's and Propagates to the Modifications. The data element is Not Applicable on a BOA and a BPA. The “Solicitation Date” is the date that the solicitation was issued. For additional data entry requirements see Data Dictionary Element 2H.

4.2.4 COMPLETION DATE (Data Dictionary Element 2C)

This data element is required for all Awards and Modifications for both Civilian Agencies and DoD. This field is defined as the end of the base contract plus any exercised options. Completion Date must be less than or equal to Estimated Ultimate Completion Date. See Data Dictionary Element 2C Use Case for appropriate data entry requirements.

4.2.5 ESTIMATED ULTIMATE COMPLETION DATE (Data Dictionary Element 2D)

The data element is required for all Awards and Modifications for both Civilian Agencies and DoD. This field represents the estimated or scheduled completion date, including the base contract or order and all options (if any) whether the options have been exercised or not. For delivery orders, this refers to the delivery order completion only, not the referenced indefinite delivery vehicle. See Data Dictionary Element 2D Use Case for appropriate data entry requirements.

4.2.6 ACTION OBLIGATION (Data Dictionary Element 3C)

This data is required for all Awards and Modifications. Enter the net amount of funds (in dollars and cents) obligated or deobligated by this transaction. If the net amount is zero, enter zero. If the net amount is a deobligation, enter a minus sign at the beginning of the amount. See Data Dictionary Element 3C Use Case for appropriate data entry requirements.

4.2.7 BASE AND EXERCISED OPTIONS VALUE (Data Dictionary Element 3B)

This data element required on all Awards and Modification. Enter the contract value for the base contract and any options/modifications that have been exercised. See Data Dictionary Element 3B Use Case for appropriate data entry requirements.

agreed upon total contract or order value including all options (if any). For modifications, this is the change (positive or negative, if any) in the mutually agreed upon total contract value. See Data Dictionary Element 3A Use Case for appropriate data entry requirements.

4.3 REPORTING DOLLAR AMOUNTS IN FPDS

The FAR states you must report modifications to actions that change previously reported contract action report data, regardless of dollar value. When zero dollar Modifications are reported, the system automatically defaults to \$0.00.

The following examples are scenarios for completing the dollar fields in FPDS- NG. Please note that the dollars in the Action Obligation, Base and Exercised Option Value and Base and All Options Value (Total Contract Value) are calculated in the order in which they are entered into the system. The total values will reflect the latest modification by the date that the award was finalized or corrected.

4.4 FEE PAID FOR USE OF IDV (Data Dictionary Element 5J)

This data element is required on Delivery/Task Orders for both Civilian Agencies and DoD. It is also required for BPA Calls and Not Applicable for a DCA and a PO. The agency placing the order will enter the dollar value of the

fee charged for this action. See Data Dictionary Element 5J Use Case for appropriate data entry requirements.

4.5.1 CONTRACTING OFFICE AGENCY ID (Data Dictionary Element 4A)

FPDS automatically populates this field based on the user's profile. This code cannot be changed when the document is in final status unless you issue a modification to specifically transfer responsibility to another office. See Data Dictionary Element 4A Use Case for appropriate data entry requirements.

4.5.2 CONTRACTING OFFICE AGENCY NAME

This data element is required for all Awards for both Civilian Agencies and DoD. FPDS automatically populates this field based on the name associated with the Contracting Office Agency ID.

4.5.3 CONTRACTING OFFICE ID (Data Dictionary Element 4B)

This data element is required for all Awards, IDVs and Modifications for both Civilian Agencies and DoD. This field may be pre-populated based upon your user profile. If not, enter the Contracting Office code that identifies your contracting office. Your agency system administrator or a designated individual maintains the list of valid contracting offices.

4.5.4 CONTRACTING OFFICE NAME

FPDS automatically populates this field based on the name associated with the Contracting Office ID from the list maintained within FPDS by the agency.

4.5.5 FUNDING AGENCY ID (Data Dictionary Element 4C)

This data element is required for all actions for both Civilian Agencies and DoD. Enter the code on each action which identifies the agency that provided the obligated funds. It is not required for a Change or Delete for both Civilian Agencies and DoD. See Data Dictionary Element 4C Use Case for appropriate data entry requirements.

4.5.6 FUNDING AGENCY NAME

FPDS automatically populates the agency name based on the agency code entered in the Funding Agency ID.

4.5.7 FUNDING OFFICE ID (Data Dictionary Element 4D)

This data element is required for all Civilian Agencies and DoD Awards and Modifications. Do not enter a code unless it is a valid funding office code in the FPDS Contracting Office/Funding Office Lookup Table for the agency. If

Program/Funding Agency is DoD, the Program/Funding Office Code must be a DoD Activity Address Code (DoDAAC) that aligns to the code provided in the Funding Agency ID. The Program/Funding Office Code is NOT the payment office (such as DFAS), it is the requiring organization providing the preponderance of funding for the contract action. If another agency provided the funds for the award, their four-digit agency code should be entered in this field. This field is important because the Small Business Goaling Report is based on Funding Agency. This report can be found at <https://beta.sam.gov/>. See Data Dictionary Element 4D Use Case for appropriate data entry requirements.

4.5.8 FUNDING OFFICE NAME

FPDS automatically populates the office name based on the funding/contracting office code entered in the Funding Office ID.

4.5.9 FOREIGN FUNDING (Data Dictionary Element 4F)

This data element is required for all Awards, Modifications and Changes and is not required for Delete, for both Civilian Agencies and DoD. This field indicates if the contract action was funded by a foreign entity. Select the appropriate entry from the following drop down list. See Data Dictionary Element 4F Use Case for appropriate data entry requirements.

Definitions for the entries are as follows:

Code	Short Description	Long Description
A	Foreign Funds FMS	Report this code if a foreign government or international organization bears some of the cost of the acquisition through Foreign Military Sales.
B	Foreign Funds non-FMS	Report this code if a foreign government or international organizations bears some cost of the acquisition by means other than Foreign Military Sales.
X	Not Applicable	Report this code if a foreign government or international organization does not bear any of the cost of the acquisition.

4.6.1 SYSTEM FOR AWARD MANAGEMENT (SAM) EXCEPTION (Data Dictionary Element 9J)

All vendors must have a DUNS® NUMBER. All vendors are required to register in the SAM database unless one of the exceptions applies. These exceptions are outlined in FAR 4.1102 (a) (1) – (6). If a SAM Exception is selected for the award, choose one of the following from the drop down menu:

- Awards made to foreign vendors for work performed outside the United States, if it is impractical to obtain SAM registration.
- Classified Contracts (FAR 2.101) when registration in the SAM database, or use of SAM data, could compromise the safeguarding of classified information or national security.
- Contracting Officers deployed in the course of military operations, including but not limited to contingency operations as defined in 10 U.S.C. 101(a)(13) or humanitarian or peacekeeping operations as defined in 10 U.S.C. 2302(7).
- Contracting Officers conducting emergency operations, such as: responses to natural or environmental disasters, and national or civil emergencies. For example, the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42.U.S.C. 5121).
- Contracts to support unusual or compelling needs (see FAR 6.302-2).
- Government-wide Commercial Purchase Card used as both the purchasing and payment mechanism, as opposed to using the purchase card only as a payment method.
- Micro-purchases that do not use the EFT method for payment and are not required to be reported (see FAR 4.6).

The data is populated from the parent contract for Delivery/Task orders and BPA Calls.

NOTE: Even if an exception is authorized, you must enter a DUNS® NUMBER. If you choose an exception, the vendor information fields open for manual data entry. Therefore, in addition to completing the name, address, and DUNS® NUMBER information, You must check all of the appropriate Business Type, Socioeconomic, Line of Business, Relationship with Federal Government, Other Government Entities, Organization Factors, Educational Entities, and Certification fields which will appear on the screen once an exception is selected. If the vendor DUNS® NUMBER is in the SAM, whether generic or actual, the system will not allow an exception. An error message will appear upon saving the document.

See Data Dictionary Element 9J Use Case for appropriate data entry requirements.

4.7 DUNS® NUMBER. (Data Dictionary Element 9A)

This data element is required for Awards and IDVs for both Civilian Agencies and DoD. The data is populated from the parent contract for Delivery/Task Orders and BPA Calls. It is not required on Modifications for either Civilian Agencies or DoD. The DUNS® NUMBER is a 9 digit code issued to an individual or business by Dun & Bradstreet. The contractor must be registered in the System for Award Management (SAM) database.

NOTE: You must have a DUNS® NUMBER or you cannot complete a contract action report in FPDS. See Data Dictionary Element 9A Use Case for appropriate data entry requirements. Report the DUNS number for the contractor location that received the award.

NOTE: The contractor registration in SAM must be complete, including Core, Assertions, Representations and Certifications, and Points of Contact sections. The “Purpose of Registration” must include “All Awards” (code Z2 or Z5).

There are two types of DUNS® NUMBER, Individual or Vendor, and Generic DUNS® Numbers.

- Individual or Vendor DUNS® NUMBER - The vendor obtains a DUNS® NUMBER through DUN and Bradstreet and enters it into SAM. FPDS uses the DUNS Number provided by the user reporting the contract action report to access the vendor information registered in SAM.
- Generic DUNS® NUMBER - The government has established a small subset of ‘Generic’ DUNS numbers registered with Dun & Bradstreet and SAM, which may be used in limited circumstances according to your agency procedures. Contact your agency system administrator regarding questions on your agency’s use of generic DUNS. When you use a generic DUNS number, FPDS will populate the vendor name and address related to that generic DUNS number registered in SAM. The use of generic DUNS numbers obscures the identification of the actual contractor, and should therefore be used sparingly so as not to limit transparency to the public.

The following information is automatically populated from SAM unless a SAM exception is used.

- VENDOR NAME
- DBAN (DOING BUSINESS AS NAME)
- CAGE Code (Commercial and Government Entity)
- STREET
- STREET 2
- CITY
- STATE
- ZIP CODE
- COUNTRY
- PHONE
- FAX No
- CONGRESSIONAL DISTRICT

4.7.1 CAGE Code ((Data Dictionary Element 9L)

The CAGE Code is pulled from SAM based on DUNS selected on the action.

4.7.2 BUSINESS CATEGORY – Obtained from SAM and cannot be changed by user.

Figure 41. Business Category

The FPDS vendor file receives the information in this section from the System for Award Management (SAM). FPDS receives a file nightly from SAM to update its internal vendor file. FPDS only opens these fields for the user input when a SAM Exception is selected. Use the On-Line Representations and Certifications (ORCA) <https://www.sam.gov> to get the socio-economic information needed for the vendor in the case of a SAM Exception.

The information below is also populated from SAM. If you click on the Show Details button you can see all of the information available in each of the following categories:

- BUSINESS TYPES
- SOCIOECONOMIC DATA
- LINE OF BUSINESS
- RELATIONSHIP WITH FEDERAL GOVERNMENT
- OTHER GOVERNMENT ENTITIES
- ORGANIZATION FACTORS
- EDUCATIONAL ENTITIES
- CERTIFICATIONS

4.8 CONTRACT DATA

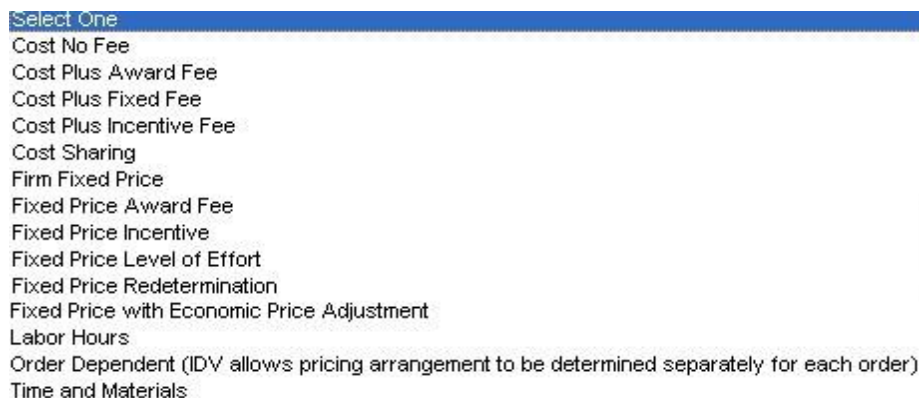

Figure 42. Contract Data

4.8.1 TYPE OF CONTRACT (Data Dictionary Element 6A)

This data element is required for all Awards. The value will populate for a Modification. This field displays the type of contract from FAR 16 that applies to this procurement. If an award has more than one contract type, identify the

type with greater contract value, or, for agencies that report multiple actions, follow agency instructions. Select the appropriate value from the drop down menu. See Data Dictionary Element 6A Use Case for appropriate data entry requirements.

Values are listed below:

The value Combination (Applies to Awards where two or more of the above apply) cannot be selected on documents with a date signed of October 1, 2009 and later and the value Other (Applies to Awards where none of the above apply) cannot be selected on documents with a date signed of October 1, 2008 and later.

4.8.2 UNDEFINITIZED ACTION UNDEFINITIZED ACTION (DATA DICTIONARY ELEMENT 6B)

This element is required on all documents and modifications except for an FSS and GWAC.

4.8.3 MULTI-YEAR CONTRACT (Data Dictionary Element 6C)

This data element is required for a DCA and is Not Applicable on a Modification. For both Civilian Agencies and DoD. Multi-Year contracts are issued under specific Congressional multi-year authority for specific programs. The key distinguishing difference between multiple year contracts and multi-year contracts is that multi-year contracts authorize performance beyond the period for which funding has been appropriated, without having to exercise options for each program year. They normally include a cancellation ceiling, i.e., the maximum amount the Government will pay for termination if the remaining funding is not appropriated. (FAR 17.103). Select No if the transaction is not a multi-year contract. See Data Dictionary Element 6C Use Case for appropriate data entry requirements.

4.8.4 MAJOR PROGRAM (Data Dictionary Element 6G)

This data element is Not Applicable on a Modification and it populates on a Part 8 and Part 13 BPA Call. It is optional for all other award types for both Civilian Agencies and DoD. This is the agency determined code for a major program within the agency. For an Indefinite Delivery Vehicle, this may be the name of a GWAC (such as, ITOPS or COMMITS). See Data Dictionary Element 6G Use Case for appropriate data entry requirements.

4.8.5 NATIONAL INTEREST ACTION (Data Dictionary Element 6R)

This data element is required for all Awards, IDVs and Modifications for both Civilian Agencies and DoD. It identifies the awards made in response to national interest actions. The events included in this list are determined by the Department of Homeland Security in accordance with the Stafford Act. Select the appropriate entry from the drop down menu. See Data Dictionary Element 6R Use Case for appropriate data entry requirements.

See Data Dictionary Element 10K Use Case for appropriate data entry requirements. This data element only applies to the following ten agencies:

- The Department of Agriculture
- The Department of Defense, except the National Imagery and Mapping Agency

- The Department of Energy
- The Department of Health and Human Services
- The Department of the Interior
- The Department of Transportation
- The Department of Veterans Affairs
- The Environmental Protection Agency
- The General Services Administration
- The National Aeronautics and Space Administration

Definitions for each value are listed below:

		industry categories and referenced F11D does not point to an IDV for which IDV Type = FSS and Business Types does not indicate a governmental entity, or educational or non-profit organization and other provisions of FAR 19.10 are met.
N	No	FPDS-NG will return No if Yes does not apply.

4.11.14 COMMERCIAL ITEM TEST PROGRAM (Data Dictionary Element 10J)

This data element is required for a DCA, Purchase Order, Part 13 BPA Call and populates on all orders and Part 8 BPA Call and Modifications.

This field designates whether the acquisition utilized FAR 13.5 Test Program for Certain Commercial Items. The FAR 13.5 Test Program provides for the use of simplified acquisition procedures for the acquisition of supplies or services in amounts greater than the simplified acquisition threshold when: (1) the acquisition does not exceed the threshold and the contracting officer reasonably expects that offers will only include commercial items; (2) the acquisition does not exceed the threshold and is for commercial items that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or recovery from nuclear, biological, chemical, or radiological attack; or (3) the acquisition does not exceed the threshold and can be treated as an acquisition of commercial items in accordance with FAR 12.102(f)(1) -- agency head determines the supplies or services are to be used to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack.

Definitions for each value are listed below:

4.12 PREFERENCE PROGRAMS/OTHERDATA

Figure 46. Preference Programs/Other Data

4.12.1 CONTRACTING OFFICER'S BUSINESS SIZE SELECTION (Data Dictionary Element 11A)

This is a required data element for a DCA and a Purchase Order, and it populates on all other Awards and Modifications. This field indicates if the selected contractor meets the small business size standard for award to a small business based on the NAICS code assigned to the action. Select the appropriate value from drop-down menu. This field is important because the Small Business Goaling Report is based on whether or not the business size is small. This report can be found at <https://beta.sam.gov/>. See Data Dictionary Element 11A Use Case for appropriate data entry requirements.

Definitions for each value are listed below:

Code	Short Description	Long Description
S	Small Business	The Contracting Officer determines that the awardee is a small business for this procurement.
O	Other Than Small Business	Enter O if it is other than small business.

NOTE: Because the contractor can be considered large in some NAICS and small in others, the contracting officer/buyer will determine the business size based on the NAICS being purchased.

4.12.2 SUBCONTRACT PLAN (Data Dictionary Element 11B)

This data element is Required for a DCA, Purchase Order, Delivery Order against a BOA and Part 13 BPA Call. A Delivery Order against FSS, GWAC and IDC will be propagated. Part 8 BPA Call is Not Applicable. This field indicates whether the contract award required a Subcontracting Plan. This field is also used to provide information to eSRS on awards that have subcontracting plans. Failure to complete this field accurately impacts vendors' ability to report subcontracting achievement to the Electronic Subcontracting Reporting System (eSRS). Select the appropriate value from the drop down menu. See Data Dictionary Element 11B Use Case for appropriate data entry requirements.

Definitions for each value are listed below:

Code	Short Description	Long Description
A	Plan Not Included - No Subcontracting Possibilities	A Subcontracting Plan was not included in the contract because subcontracting possibilities do not exist (FAR 19.705-2I)
B	Plan Not Required	No Subcontracting Plan was required. (Ex. The action did not meet the dollar thresholds in FAR 19.702(a)).

C	Plan Required - Incentive Not Included	Includes a Subcontracting Plan but does not include additional incentives (FAR 19.702(a) and FAR 19.708(c)). This value is end dated as of May 1, 2015.
D	Plan Required - Incentive Included	Includes a Subcontracting Plan and also includes additional incentives (FAR 19.702(a), FAR 19.708(c) and DFARS 219.708(c)). This value is end dated as of May 1, 2015.
E	Plan Required (Pre 2004)	Plan Required (Pre 2004)
F	Individual Subcontract Plan	Applies to a specific contract with goals that covers the entire contract period, including option periods (FAR 19.701)
G	Commercial Subcontract Plan	Commercial plan” means a subcontracting plan (including goals) that covers the offeror’s fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof (e.g., division, plant, or product line) (FAR 19.701)
H	DoD Comprehensive Subcontract Plan	A subcontracting plan based on a plant, division, or company-wide basis. This value is only valid for DoD. (DFARS 219.702).

4.12.3 PRICE EVALUATION PERCENT DIFFERENCE (Data Dictionary Element 11C)

This data element is optional for a DCA and Populates for a Modification and is Not Applicable for all other Awards for both Civilian Agencies and DoD. Enter a number between 00 and 20 which represents the percent difference between the award price and the lowest priced offer from a responsive, responsible non-HUBZone or non-SDB. Report this percent difference for HUBZone and SDB Price Evaluation Adjustment Programs. (The SDB Price Evaluation can only be selected with a “Date Signed” on or prior to October 13, 2014.) Calculate the percentage by dividing the difference (award price minus the lowest priced non-small or HUBZone business) by the lowest priced offer from a non-small business and enter it as a two-digit number rounded to the nearest percent. If no premium was paid, enter two zeros (00). See Data Dictionary Element 11C Use Case for appropriate data entry requirements.

5. BASIC INDEFINITE DELIVERY VEHICLES (IDVs)

A basic Indefinite Delivery Vehicle is a contract that the contracting officer awards to one or more vendors to facilitate the delivery of supply and service orders. A contracting officer establishes an Indefinite Delivery Vehicle by awarding a Federal Supply Schedule (FSS), Government-Wide Acquisition Contract (GWAC), Basic Ordering Agreement (BOA), Blanket Purchasing Agreement (BPA), or other Indefinite Delivery Contract (IDC). FAR Part 17 (Special Contracting Methods) defines the types of IDVs. IDV is not a term found in the FAR but serves as an umbrella that covers several different special contracting methods.

Figure 47 Function Buttons

NOTE: Depending on the type of action selected, the appropriate button will be enabled.

 – Creates a new entry screen for the Award section.

 – Saves the information in your document. Use this when you report data in the system, whether complete or in part. If you have made changes to the action, please hit the Save Draft button before validating or closing the action. This process will ensure that your data will not be lost.

 – Determines if there are any errors. Use this when the record is complete. If there are errors, the screen will display error messages at the top of the document. All fields in error status are shown in Red and must be corrected in order to Validate and Approve the action.

 – Allows you to Approve the document. Use this when the document is error free. The record will then be in final status.

 – Allows you to fix mistakes in FPDS that do not change the legal intent of the contract action. You can only use this function when a contract action is in final status. The data dictionary use cases refer to Correct type actions as ‘Change’.

 – Allows you to prepare a modification to a base record. This button is on the header of your entry screen. You can also use the Modification selection from the main menu under Transactions/Modifications.

 – Allows you to prepare a document to be used as a template for recurring awards. Templates are created to allow you to quickly complete additional records using the same basic contract information.

 – Allows you to Delete a record entirely from the system. Nothing is saved in FPDS. However, the PIID may be re-used. FPDS will not allow the user to delete a base record if there are modifications or orders against it.

 – Allows you to print the document that is currently on the screen.

 - The Close Out button allow the user to close out a contract family with the new API. The function will also be available in GUI Services and the Web Portal.

 – Changed the Close Button to Exit. The user Exit the current document without saving. The user will see a dialog box asking if the document should be saved.

 – Provides the user on-line ‘Help’ that includes a Glossary. You can also access the help by clicking the ‘Help’ button at the top right corner of the main FPDS-NG screen.

NOTE: The Void functionality has been deprecated from FPDS as of July 10, 2009.

5.1.1 IDV TYPE (Data Dictionary Element 12A)

The IDV types include:

- FSS (Federal Supply Schedule) – A simplified process of acquiring commonly used supplies and services in varying quantities at lower prices while obtaining discounts associated with volume buying. GSA and VA are the only agencies authorized to award this type of contract.
- GWAC (Government-Wide Acquisition Contract) – When creating a government wide vehicle for ordering IT services or supplies. Delegation of authority must be received from OFPP to award this type of vehicle (such as, COMMITS, ITOP, STARS and SEWP).
- BOA (Basic Ordering Agreement) – A written instrument of understanding, negotiated between the Government and a contractor, that contains (1) terms and clauses applying to future actions (orders) between the parties during the term, (2) a description, as specific as practical, of supplies or services to be provided, and (3) methods for pricing, issuing, and delivering future orders under the Basic Ordering Agreement. Each order against a BOA is a separate contract. Federal Schedule Contracts are not Basic Ordering Agreements.
- BPA (Blanket Purchasing Agreement) – A BPA simplifies the filling of recurring needs for supplies or services, while leveraging a customer's buying power by taking advantage of quantity discounts, saving administrative time, and reducing paperwork. Ordering Offices may establish BPAs against a Federal Supply Schedule.
- IDC (Indefinite Delivery Contract) – A vehicle that has been awarded to one or more vendors to facilitate the delivery of supply and service orders. These may include Multiple Award Contract (MAC), Indefinite Delivery Indefinite Quantity (IDIQ), Indefinite Delivery Definite Quantity (IDDQ), and Indefinite Delivery Requirement (IDR).

The IDV type is determined by your selection from the Basic IDVs column on the main screen.

5.2.1 IDV ID

Consists of the Agency (Code), Procurement Instrument Identifier (PIID) and Modification Number as described below.

5.2.1.1 AGENCY

This data element is required for all IDVs and is automatically populated based on the user's profile.

NOTE: All of DoD uses the '9700' agency code/identifier.

5.2.1.2 PROCUREMENT INSTRUMENT IDENTIFIER (PIID) (Data Dictionary Element 1A)

As defined in FAR 4.605(a) enter the unique PIID that identifies your IDV. The PIID is the contract number. The PIID field is required for all IDVs and Modifications.

NOTE: As of April 1, 2018, the PIID Structure was changed to comply with the Uniform PIID Structure (FAR Subpart 4.16). The PIID structure is shown below. This is for Civilian Agencies only. DoD is already using this structure. The Period of Performance Start Date for the FPDS changes is

- Positions 1 through 6 will be required to match the Contracting Office ID (AAC).
- Positions 7 through 8 will be required to match the Fiscal Year of the Date Signed.
- Position 9 will designate the type of instrument.
- Positions 10 through 17 will be assigned by the Agency.

5.2.1.3 MODIFICATION NUMBER (Data Dictionary Element 1B)

Enter a Modification Number when reporting modifications to contracts, agreements, or orders. Report the modification number sequence as prescribed by your agency. This number must be unique for any given PIID. FPDS requires this field for all modifications.

NOTE: As of April 1, 2018, Modification Number Structure was changed to comply with the Uniform PIID Structure (FAR Subpart 4.16). The Modification structure is shown below. This is for Civilian and DoD Agencies.

The Modification must begin with an (A) or a (P) and must be six characters. The letter A is to be used for Modifications issued by the Contract Administration Office

(If other than the procuring office). The letter P is designated for Modifications issued by the procuring office.

5.2.1.4 REFERENCED IDV ID (Data Dictionary Element 1C)

Enter the contract or agreement number of the IDV against which your Part 8 Blanket Purchase Agreement (BPA) is placed. This field can only have an entry for the initial entry of a Part 8 BPA. For all other IDV types the field is grayed out, meaning that no entry is allowed. FPDS allows up to 50 characters.

5.2.1.5 REASON FOR MODIFICATION (Data Dictionary Element 12C)

This field will only be available when performing a modification to an existing contract. Select the appropriate entry from the drop down menu.

The entries are as follows:

(Please note that you will not see the codes on the FPDS input screen.)

Code Short Description	Code Short Description
A	Additional Work (New Agreement, Justification Required)
B	Supplemental Agreement for work within scope
C	Funding Only Action
D	Change Order
E	Terminate for Default (complete or partial)
F	Terminate for Convenience (complete or partial)
G	Exercise an Option
H	Definitize Letter Contract
J	Novation Agreement
K	Close Out
L	Definitize Change Order
M	Other Administrative Action
N	Legal Contract Cancellation
P	Rerepresentation of Non-Novated Merger/Acquisition
R	Rerepresentation
S	Change PIID
T	Transfer Action
V	Vendor DUNS Change
W	Vendor Address Change
X	Terminate for Cause
Y	Add Subcontract Plan

NOTES: When a modification needs to update vendor information (e.g. name and/or address) you must select the proper Reason for Modification (e.g. Novation Agreement, Vendor DUNS or Name Change, Vendor Address Change, Rerepresentation). Otherwise, the system will not allow changes to the vendor information on a modification. ‘Transfer Action’ is an entry in the Reason for Modification field that is available to agency administrators. Anyone can select this entry; however, the user will not be able to save draft unless the user ID has the Transfer privilege assigned.

5.2.1.6.1 SOLICITATION ID (Data Dictionary Element 1E)

The data element is optional for all Awards for both DoD and Civilian and populates on Modifications. However, it is now required if the Data Element “FedBizOpps” is ‘Yes’. See Data Dictionary Element 1E Use Case for appropriate data entry requirements.

5.2.1.7 **TREASURY ACCOUNT SYSTEM (TAS) – (Data Element 6SG thru 6SI)**
 The data element is required on all civilian documents if the Action Obligation is more than or less than zero \$0.00. For DoD, this data element is Optional irrespective of the Action Obligation value except for American Recovery and Reinvestment Act actions when it is required for DoD. This data element is also used to identify if the funds were part of the American Recovery and Reinvestment Act. If you do not know your Treasury Account Symbol (TAS) please contact your budget/finance office.

NOTE: As of June 28, 2019, the Treasury Account Symbol fields will be Not Applicable and will be grayed out. That includes all three parts: The Agency Identifier (2characters); the Main Accounts (4 characters); and a Sub Account (3 characters).

As of June 28, 2019. The Initiative field will be Not Applicable and will be grayed out.

5.3.1 DATE SIGNED (Data Dictionary Element 2A)

The data element is required for all IDVs and Modifications. The date signed is when a mutually binding agreement is reached. The date signed by the Contracting Officer or the Contractor, whichever is later. The format is mm/dd/yyyy. For basic agreements, or IDVs, for which there is no funding on the basic document, the date signed is the date mutually agreed upon by the contracting officer and the contractors. When funds are obligated the date signed should be the date of the written obligation of funds.

5.3.2 Period of Performance Start Date (Data Dictionary Element 2B).

The data element is required for all IDVs and propagates to all Modifications. This date can be the same date as the Date Signed. The format is mm/dd/yyyy. The Period of Performance Start Date is the date that the parties agree will be the starting date for the contract’s requirements. In certain cases the Period of Performance Start Date may be delayed so that it is later than the date signed. Reasons could include avoiding major holidays or to wait for the availability of funds. The Period of Performance Start Date can also be before the date signed when a contractor started work before a formal agreement was signed.

5.3.3 LAST DATE TO ORDER (Data Dictionary Element 2E)

The data element is required for all IDVs and Modifications. Last date on which an order may be placed against an indefinite delivery vehicle. The format is mm/dd/yyyy.

5.3.4 SOLICITATION DATE (Data Dictionary Element 2H)

This data element is optional for all Awards and IDV's and Propagates to the Modifications. The data element is Not Applicable on a BOA and a BPA. The "Solicitation Date" is the date that the solicitation was issued. For additional data entry requirements see Data Dictionary Element 2H.

5.4 AMOUNTS

5.4.1 ACTION OBLIGATION (Data Dictionary Element 3C)

This data element is Optional for all IDVs and Modifications. Enter the net amount of funds (in dollars and cents) obligated or deobligated by this transaction. If the net amount is zero, enter zero. If the net amount is a deobligation, enter a minus sign at the beginning of the amount. Enter dollars and cents.

5.4.2 BASE AND EXERCISED OPTION VALUE (Data Dictionary Element 3B)

The contract value for the base contract and any options that have been exercised.

This data element is Not Applicable for all IDV's and modifications.

5.4.3 BASE AND ALL OPTIONS VALUE (TOTAL CONTRACT VALUE) (Data Dictionary Element 3A)

This data element is required for all IDVs and Modifications. Enter the mutually agreed upon total contract or order value including all options (if any). For Indefinite Delivery Vehicles, this is the total estimated value for all orders which are expected to be placed against the vehicle. For modifications, this is the change (positive or negative, if any) in the mutually agreed upon total contract value. Enter dollars and cents.

5.4.4 TOTAL ESTIMATED ORDER VALUE (Data Dictionary Element 3E)

This data element is only required on an FSS, GWAC and IDC and is Optional on Modifications.

FPDS automatically populates this field based on the user's profile. This code cannot be changed when the document is in final status unless you issue a modification to specifically transfer responsibility to another office.
- 5.5.2 CONTRACTING OFFICE AGENCY NAME.**
FPDS automatically populates this field based on the name associated with the Contracting Office Agency ID in 5.1.1.
- 5.5.3 CONTRACTING OFFICE ID (Data Dictionary Element 4B)**
This data element is required for all IDVs and Modifications. Enter the code that identifies your contracting office. Must be a valid value in the contracting office table. Agency system administrators are responsible for maintaining their agency's list of valid contracting offices.
- 5.5.4 CONTRACTING OFFICE NAME**
FPDS automatically populates this field based on the name associated with the Contracting Office ID in 5.1.3.
- 5.5.5 FUNDING AGENCY ID (Data Dictionary Element 4C)**
This data element is required for all IDVs and Modifications for both Civilian Agencies and DoD. If funding has been provided by more than one agency a separate action should be prepared to reflect the obligations from each agency. Enter the code on each action which identifies the agency that provided the obligated funds. See Data Dictionary Element 4C Use Case for appropriate data entry requirements.

5.5.6 FUNDING AGENCY NAME

FPDS automatically populates the agency name based on the agency code entered in the Funding Agency ID.

5.5.7 FUNDING OFFICE ID (Data Dictionary Element 4D)

This data element is required for all IDVs and Modifications for both Civilian Agencies and DoD. Do not enter a code unless it is a valid funding office code in the FPDS Contracting Office/Funding Office Lookup Table for the agency. If Program/Funding Agency is DoD, the Program/Funding Office Code must be a DoD Activity Address Code (DoDAAC) that aligns to the code provided in the Funding Agency ID. The Program/Funding Office Code is NOT the payment office (such as DFAS), it is the requiring organization providing the preponderance of funding for the contract action. If another agency provided the funds for the award, their four-digit agency code should be entered in this field. This field is important because the Small Business Goaling Report is based on Funding Agency. This report can be found at <https://beta.sam.gov/>. Data Dictionary Element 4D Use Case for appropriate data entry requirements.

5.5.8 FUNDING OFFICE NAME

FPDS automatically populates the office name based on the funding/contracting office code entered in the Funding Office ID.

5.5.9 FOREIGN FUNDING (Data Dictionary Element 4F)

This data element is required for all IDVs and Modifications for both Civilian Agencies and DoD. This field indicates if the contract action was funded by a foreign entity. Select the appropriate entry from the following drop down list. See Data Dictionary Element 4F Use Case for appropriate data entry requirements.

Short Description	Long Description
Foreign Funds FMS	Report this code if a foreign government or international organization bears some of the cost of the acquisition through Foreign Military Sales.
Foreign Funds non-FMS	Report this code if a foreign government or international organizations bears some cost of the acquisition by means other than Foreign Military Sales.
Not Applicable	Report this code if a foreign government or international organization does not bear any of the cost of the acquisition.

5.6.1 SAM EXCEPTION (Data Dictionary Element 9J)

All vendors must have a DUNS® NUMBER. All vendors are required to register in the System for Award Management (SAM) database except when one of the following seven exceptions applies.

If a SAM Exception is selected for the award, choose one of the following from the drop down menu:

- Awards made to foreign vendors for work performed outside the United States (if it is impractical to obtain SAM registration).
- Classified Contracts (see FAR 2.101) when registration in the SAM database, or use of SAM data, could compromise the safeguarding of classified information or national security.
- Contracting Officers deployed in the course of military operations, including but not limited to contingency operations as defined in n10 U.S.C. 101(a)(13) or humanitarian or peacekeeping operations as defined in 10 U.S.C. 2302(7).
- Contracting Officers conducting emergency operations, such as responses to natural or environmental disasters, or national or civil emergencies. For example, the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121).
- Contracts to support unusual or compelling needs (see FAR 6.302-2).
- Government-wide Commercial Purchase Card used as both the purchasing and payment mechanism, as opposed to using the purchase card only as a payment method.
- Micro-purchases that do not use the EFT method for payment and are not required to be reported. (FAR 4.6)

NOTE: Even if an exception is authorized, you must enter a DUNS® NUMBER. If you choose an exception, the vendor information fields open for manual data entry. In addition to completing the name, address, and DUNS information, you must check all of the appropriate socioeconomic and business-related fields. See the screen shot below. If the vendor DUNS® NUMBER is in the

System for Award Management (SAM), whether generic or actual, the system will not allow an exception. An error message will appear upon saving the document.

5.6.2 DUNS® NUMBER (Data Dictionary Element 9A)

All vendor entries in FPDS must have a DUNS® NUMBER. There are two types of DUNS® NUMBERS, Individual or Vendor DUNS® NUMBERS, and Generic DUNS® NUMBERS. You must have a DUNS® NUMBER or you cannot complete a contract action report in FPDS.

- Individual or Vendor DUNS® NUMBER - The vendor obtains a DUNS® NUMBER through Dun and Bradstreet and enters it into SAM. FPDS uses the DUNS number provided by the user reporting the contract action report to access the vendor information registered in SAM. □
- Generic DUNS® NUMBER - The government has established a small subset of ‘Generic’ DUNS numbers registered with Dun & Bradstreet and SAM, which may be used in limited circumstances according to your agency procedures. Contact your agency system administrator regarding questions on your agency’s use of generic DUNS. When you use a generic DUNS number, FPDS will populate the vendor name and address related to that generic DUNS number registered in SAM. The use of generic DUNS numbers obscures the identification of the actual contractor and should therefore be used sparingly so as not to limit transparency to the public. □
- Report the DUNS number for the contractor location that received the award. □
- NOTE: The contractor registration in SAM must be complete, including Core, Assertions, Representations and Certifications, and Points of Contact sections. The “Purpose of Registration” must include “All Awards” (code Z2 or Z5). □

The following information is automatically populated from SAM unless a SAM exception is used.

- VENDOR NAME
- DBAN (DOING BUSINESS AS NAME)
- CAGE CODE
- STREET
- STREET 2
- CITY
- STATE
- ZIP CODE
- COUNTRY
- PHONE
- FAX No
- CONGRESSIONAL DISTRICT

5.6.3 CAGE Code ((Data Dictionary Element 9L)

The CAGE Code is pulled from SAM based on DUNS selected on the action.

5.6.4 BUSINESS CATEGORY- OBTAINED FROM SAM AND CANNOT BE CHANGED BY USER

Populated from SAM except when there is a valid SAM exception. When there is a SAM exception the checkboxes are not grayed out and the user can click on each business element which applies to the action’s vendor and use the On-Line

Representations and Certifications Application (ORCA) located at <https://www.sam.gov> to get the socio-economic information needed.

The FPDS vendor file receives the information in this section from the System for Award Management (SAM). FPDS receives a file nightly from SAM to update its internal vendor file. 7. TRANSACTION/MODIFICATIONS COLUMN

Use this column when selecting a contract action report to correct or modify. By using Advanced Search  (see the Advanced Search section 2.10) capability at the top of the screen, you can also perform these functions. To perform any of these functions, you must have a PIID (Procurement Instrument Identifier).

- Correction – To fix a mistake in a record that is in final status. It should be noted that the correction should not change the legal intent of the contract action. You can only use this function when a contract action report is in final status. . □
- Modifications – Use modifications to report information on a document where the legal intent of the contract has changed. To report modifications to an existing Award/IDV document; the base document must already be in final status in FPDS. □

FPDS ezSearch and ICD Tools

8. ezSearch and ICD Tools

This section describes the ezSearch and Interagency Contract Directory capabilities in FPDS.

These functions are accessed via the Navigation screen shown in the following figure. FPDS gathers information on reported procurement transactions and stores this information in a database for analysis. Searches for those reported transactions are conducted using the following two tools:

– ezSearch - This is a ‘Google’ like tool that allows you to perform searches on the various fields within the FPDS system

– Interagency Contract Directory (ICD) - This is also a ‘Google’ like tool that presently contains all active Federal Supply Schedules (FSS), Government wide Acquisition Contracts (GWAC), Blank Ordering Agreements (BOA), Blank Purchase Agreements (BPA), and the various types of Indefinite Delivery Contracts awarded after October 1, 2006.

FPDS FREQUENTLY ASKED QUESTIONS

A.1 Why is contract reporting in FPDS necessary?

Through the Office of Federal Procurement Policy (OFPP) Act, Congress mandated that contract actions using appropriated funds must be reported to FPDS.

The Government has a compelling need to understand where your tax dollars are spent. Collecting data about Government procurements provides a broad picture of the overall Federal acquisition process. The ability to look at all contracts across many agencies, in great detail, is a key ingredient to establishing transparency in published Government procurement data and credibility in the professionals who use these contracts. With a view of the federal spending we can hope to conduct analyses to structure strategic procurements and save money; improve government-wide management; and establish interoperation with other government-wide data systems.

In addition, there is now the ability to independently access Government-wide information globally. This increases the need for data accuracy.

Agencies also use this information for management purposes. As an example, some agencies use this information to calculate workload and buyer productivity.

A.2 What is not included in FPDS?

Following are examples of data not reported in the FPDS.

- Subcontracting data.
- Financial information other than instant obligation and estimated values.
- Accounting data.
- CLIN information.
- Detailed contract information, such as terms and conditions, deliverables, statements of work, proposals, contractor employee information, line items and wage determinations.

A.3 What are the roles of federal departments and agencies, including SBA, in federal contract reporting?

Federal contracting data is entered into the Federal Procurement Data System-Next Generation (FPDS) by acquisition agencies, each of which has primary responsibility for the quality of the data that they submit to the system. After each fiscal year, submitting departments and agencies verify to the Office of Federal Procurement Policy, in the Office of Management and Budget, that their procurement data is properly entered into the system. FPDS is managed by the General Services Administration's (GSA's) Integrated Acquisition Environment Program Office (IAEPMO). This office assures proper maintenance of FPDS's online database of federal procurement actions.

A.4 Who needs to be registered and why?

If you do not use a contract writing system and input your contract action reports through Web portal, you need to be registered. If you use a contract writing system, the standard is a single sign-on which is established for that server and you do not need an individual registration. However, if you are a system administrator or other individual who wants to filter and view records, you will need to be registered as you must access FPDS through an internet browser, not your contracting writing system, at <https://fpds.gov>. Government employees, who are registered through their agency's FPDS System Administrator, may have additional capabilities.

A.5 What if I get locked out after 5 unsuccessful attempts at logging in to my FPDS user account?

Contact your Department or Agency FPDS System Administrator.

A.6 Is there any intelligence in the contract numbers (PIID)?

Yes, there is. The Uniform PIID is shown below:

- Positions 1 through 6 will be required to match the Contracting Office ID (AAC).
- Positions 7 through 8 will be required to match the Fiscal Year of the Date Signed.
- Position 9 will designate the type of instrument.
- Positions 10 through 17 will be assigned by the Agency.

A.7 Why is there no Federal mandate on the format of contract numbers (PIID)?

As of October 1, 2017, the Uniform PIID Structure was implemented. See above (A.8) for the requirements.

A.8 Can I get a copy of the contract file including the terms and conditions from FPDS?

No. Only designated data about the contract is in FPDS.

A.9 If not, where can I get a copy of the contract?

Frequently, these requests are handled as Freedom of Information Act (FOIA) requests. You will need to contact the awarding agency's FOIA Office for further information.

A.12 Is there a central repository of all active contract documents?

No. The active contract files are not stored in a federal sponsored, central repository. Only closed out contracts are maintained in an archival status. The active contract files are maintained by the appropriate contracting office.

- A.13 Where can I see the items that were purchased or delivered on a contract?
We refer to this level of detail as the “contract line item” or the “contract line item number” (CLIN) data. FPDS collects data at the contract level not at the CLIN level. Usually CLIN data is available to the public through a formal request made to the awarding agency’s FOIA office.
- A.14 Where can I find the type of contract awarded?
This information is available in FPDS. Please refer to the FPDS Data Dictionary for specific data elements and definitions.
- A.15 How can I tell if a contract action is referencing a Federal Supply Schedule?
When a Delivery Order, Task Order, BPA or BPA Call is placed in the system, the record is required to have a reference PIID. There are only two Agencies that award Schedules and they are General Services Administration (GSA) and Veteran Affairs (VA). If the DO/TO are for medical supplies and/or services the schedule will usually begin with ‘VA’. The BPA Call will reference the BPA that may have been created from a VA, FSS schedule or other type of Indefinite Delivery Vehicle. If a DO/TO has a GSA referenced PIID that is in the following format, it is a schedule.

<u>Position 1-2</u>	<u>Position 3-4</u>	<u>Position 5</u>	<u>Position 6-9</u>	<u>Position 10</u>
GS	NN	F	NNNN	Alpha A-Y

Please note that the ‘N’ in this example represents numbers.

NOTE: Starting with the implementation (April 1, 2018) of the Uniform PIID Structure, there will not be any way to determine if a Contract Action Report is a Federal Supply Schedule (FSS) action. Prior to the implementation, the above structure has not changed.

- A.16 Does the location of the Contracting Office have any bearing on where the item being purchased will be used or the services provided?
In many instances the products or services are located in the same area as the Contracting Office. However, there are as many times where the products and services are used in a Field Office that is not co-located with the Contracting Office. An example of awards made at one location and used at another is the purchase of fleet vehicles. The actions are awarded in Washington, DC by the Federal Acquisition Service (FAS) and the vehicles are shipped to a number of the Fleet Management Centers throughout the United States.
- A.17 What are federal departments and agencies doing to assure that the data they submit to FPDS are as accurate as possible?
The federal government is committed to improving the acquisition data in FPDS. While progress has been made, additional process improvements are underway. For example, the Administrator of the Office of Federal Procurement Policy now requires that agencies establish and document procedures for validating and verifying contract data submitted to FPDS.
- A.18 Why does accuracy in small business contracting data matter?
Federal contracting preference programs are intended to promote a vibrant National industrial base, which provides the government an ample pool of vendors. To ensure full participation in the Federal marketplace, statutory goals have been established for each of these programs. Each year, performance against these goals is evaluated.

Because the purpose of contracting goals is so important, performance evaluation must be accurate. With accurate contract data, federal agencies can take appropriate credit for their small business contract awards.

A.19 What does “Purchase Card Used as Method of Payment” mean?

The order or contract provides for payments to the contractor to be made through the use of the purchase card. These are “charges” backed by a contract vehicle/document. It allows the government and the contractor to avoid the use of expensive invoices.

A.20 Does FPDS have purchase card data?

Purchase card transactions less than or equal the micro purchase threshold are not reportable to FPDS. The banks that issue the cards collect purchase card data.

A.21 What is the difference between the North American Industrial Classification System (NAICS) and Product and Service Codes (PSC)? Why does FPDS have both?

The North American Free Trade Agreement (NAFTA) requires the use of NAICS by The Government. The NAICS classifies commercial activity into broad business categories, such as soybean farming, manufacturer, wholesaler, retail, and services. PSCs describe specific products and services which form the basis for national stock numbers.

Both fields are required because statute requires some reports to be based on NAICS information, some on PSC information, and some, such as the Competitive Demonstration Program, must use both codes.

It also helps narrow a search if we allow users to select what they want from two or three filters. For example, we do not buy “PHOTOGRAPHIC AND PHOTOCOPYING EQUIPMENT MANUFACTURING”, “PHOTOGRAPHIC EQUIPMENT AND SUPPLIES WHOLESALERS”, or CAMERA AND PHOTOGRAPHICSUPPLIES STORES”, we buy cameras.

A.22 What does Place of Performance really mean?

The information in this field should reflect where the items will be produced, manufactured, mined, or grown or where the service will be performed. This field refers to the contractor’s final manufacturing assembly point, processing plant, construction site, place where a service is performed, location of mines, or where the product is grown.

APPENDIX B

GLOSSARY OF TERMS

8(a) – The Small Business Administration (SBA) administers the 8(a) Business Development Program that offers a broad scope of assistance to socially and economically disadvantaged firms. 8(a) firms automatically qualify for SDB certification.

ABILITYONE – formally known as JWOD – Javits-Wagner-O’Day . Created in 1938 and amended in 1971, the Javits-Wagner-O’Day Act (41 USC 46-48c) and the AbilityOne Program, creates employment and training opportunities for people who are blind or those who have other severe disabilities. This is a preferred supply source for Federal Government.

Agency System Administrator - Overall responsibility for the administration of FPDS within the respective agency. These responsibilities include but are not limited to establishing user profiles, privilege and functions associated with passwords and respond to user’s questions.

A basic ordering agreement is a written instrument of understanding, negotiated between the government and contractor that contain (a) terms and clauses applicable to future contracts (orders) between the parties during its term; (b) a description, as specific as practicable of supplies or services to be provided; and (c) methods for pricing, issuing and delivering future orders. Each order against a BOA is a separate contract. Federal schedule contracts are not Basic Ordering Agreements.

BPA – In accordance with Federal Acquisition Regulation (FAR) 8.405-3, ordering activities may establish BPAs under any GSA Schedule contract. A GSA Schedule BPA simplifies the filling of recurring needs for supplies or services, while leveraging a customer's buying power by taking advantage of quantity discounts, saving administrative time, and reducing paperwork.

CCB Change Control Board – The FPDS CCB serves as the primary communication liaison to the agencies and is ultimately responsible for tracking all approved changes to the FPDS. The CCB member proposes and reviews configuration items required to keep the Federal Procurement Data System database current with Federal requirements.

Clinger-Cohen Act Planning Compliance – This procurement is for computer hardware or services, certification by the funding office as to whether the planning requirements have been met.

Congressional District – A congressional district is an electoral constituency which is any cohesive corporate unit or body bound by shared structures, goals or loyalty that elects a single member of the Congress.

under two or more separate contracts.

Construction Wage Rate previously reflected as the Davis-Bacon Act – The Davis-Bacon Act of 1931 is a United States federal law which established the requirement for paying prevailing wages on public works projects. All federal government construction contracts, and most contracts for federally assisted construction over \$2,000, must include provisions for paying workers on-site no less than the locally prevailing wages and benefits paid on similar projects.

Emerging Small Business – This is a small business concern whose size is no greater than 50 percent of the numerical size standard applicable to the North American Industry Classification System (NAICS) code assigned to a contracting opportunity. “Emerging small business reserve amount,” for the designated groups described in FAR 19.1005, means a threshold established by the Office of Federal Procurement Policy of—

- (1) \$30,000 for construction, refuse systems and related services, non-nuclear ship repair, landscaping and pest control services; and
- (2) \$50,000 for architectural and engineering services.

EPA-Designated Product(s) – The Resource Conservation and Recovery Act (RCRA), Section 6002 and Executive Order 13101 require the purchase of Environmental Protection Agency (EPA) designated products with a required minimum recovered material content as described in an agency's Affirmative Procurement Program (APP).

Federal Acquisition Regulation (FAR) – The regulation for use by federal executive agencies for acquisition of supplies and services with appropriated funds.

FEDSTRIP/MILSTRIP – Federal and Military Standard Requisitioning and Issue Procedures. These procedures allow for automated processing by the supply system not only of GSA, but also the Department of Defense and the Department of Veterans Affairs-the three supply sources for both civilian and military agencies.

FPDS – Federal Procurement Data System - Next Generation. The FPDS is the current central repository of information on Federal contracting. The system contains detailed information on contract actions over \$3,000 (FY2004 and later data). The Executive departments and agencies award over \$200 billion annually for goods and services. The system can identify who bought what, from whom, for how much, when and where.

Each GWAC is operated by an executive agent designated by the Office of Management and Budget (OMB) pursuant to section 5112(e) of the Clinger-Cohen Act. The Economy Act does not apply when placing orders under GWACs. To use GWACs, agencies must obtain a delegation of authority from the GWAC Program Office. Examples for GWACs include but are not limited to COMMITS, ITOP, SEWP and 8(a) STARS.

HBCU or MI – Historically Black College and/or University or Minority Institutions

All DOD basic ordering vehicles shall use the Other IDC format.

IDV – Indefinite Delivery Vehicle. A basic award that allows you to place orders in accordance with the terms and conditions of the specific IDV.

Labor Standards formally known as the Service Contract Act – Is the short name for The McNamara-O'Hara Service Contract Act of 1965 (SCA) requires general contractors and subcontractors performing services on prime contracts in excess of \$2,500 to pay service employees in various classes no less than the wage rates and fringe benefits found prevailing in the locality as determined by DOL, or the rates contained in a predecessor contractor's collective bargaining agreement.

MAIS – Major Automated Information Systems

Materials, Supplies, Articles and Equip. formally known as The Walsh-Healey Act - or Walsh-Healey Public Contracts Act, passed in 1936 as part of the New Deal, is a United States federal law which protects employees of government contractors whose contracts exceeds \$10,000. Modification - The term modification means any written change in the terms of a contract. There are two types of modification and they are either a Bilateral or Unilateral. A bilateral modification (supplemental agreement) is a contract modification that is signed by the contractor and the contracting officer. Bilateral modifications are used to— Make negotiated equitable adjustments resulting from the issuance of a change order; definitized letter contracts; and reflect other agreements of the parties modifying the terms of contracts. A unilateral modification is a contract modification that is signed only by the contracting officer. Unilateral modifications are used, for example, to— Make administrative changes; issue change orders; make changes authorized by clauses other than a changes clause (*e.g.*, Property clause, Options clause, or Suspension of Work clause); and issue termination notices. Modifications within FPDS fall into one of the following areas: Additional Work(new agreement, FAR Part 6 applies), Change Order, Close Out, Definitized Change Order, Definitized Letter Contract, Exercise an Option, Funding Only Action, Legal Contract Cancellation, Novation Agreement, Other Administrative Action, Rerepresentation, Rerepresentation of Non-Novated Merger/Acquisition, Supplemental Agreement for Work Within Scope, Terminate for Convenience (Complete or Partial), Terminate for Default (Complete or Partial), Transfer Action, Vendor DUNS Change and Vendor Address Change.

Multi-year Contract – A Multi-year contract means a contract for the purchase of supplies or services for more than 1, but not more than 5, program years. Such contracts are issued under specific congressional authority for specific programs. The key distinguishing difference between Multi-year contracts and multiple year contracts is that Multi-year contracts buy more than 1 year's requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.

NAICS Code – The North American Industrial Classification Systems classifies commercial activity into broad business categories, such as agriculture, mining, construction, manufacturing, wholesale trade, retail trade, and services.

Novation – This a legal instrument executed by the contractor or successor in interest and the Federal Government. This instrument guarantees performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets.

Office of Federal Procurement Policy Act – 41 U.S.C. requires the Administrator for Federal Procurement Policy to establish a computer-based Federal Procurement Data System (FPDS) for collecting, developing and disseminating procurement data to the Congress, the Executive branch and the private sector. The General Services Administration manages the FPDS.

Performance-Based Service Contract (PBSC) –

- a. Describes the requirements in terms of results required rather than the methods of performance of the work;
- b. Uses measurable performance standards (i.e., terms of quality, timeliness, quantity, etc.) and quality assurance surveillance plans (see 46.103(a) and 46.401(a));
- c. Specifies procedures for reductions of fee or for reductions to the price of a fixed-price contract when services are not performed or do not meet contract requirements (see 46.407); and
- d. Includes performance incentives where appropriate.

For FPDS reporting purposes, a minimum of 50% of the anticipated obligations under the procurement action must meet the above requirements.

PIID – Procurement Instrument Identifier is the contract number or order number identifying the agreement between the government and the awardees. The PIID field is required for all actions.

Recovered Material Clauses – Designates whether Recovered Material Certification and/or Estimate of Percentage of Recovered Material Content for EPA-Designated Products clauses were included in the contract.

Referenced IDV – This is the contract or agreement number of the IDV against which your order is placed. This field is mandatory for all delivery/task order and BPA calls.

SAM – System for Award Management database means the primary Government repository for contractor information required for the conduct of business with the Government.

SAM Exception – The reason a vendor/contractor not registered in the mandated SAM system was used in a purchase. These reasons outlined in the FAR are:

(1) Purchases that use a government-wide commercial purchase card as both the purchasing and payment mechanism, as opposed to using the purchase card only as a payment method.

(2) Classified contracts (see 2.101) when registration in the SAM database, or use of SAM data, could compromise the safeguarding of classified information or national security.

(3) Deployed contracting officers in the course of military operations, including, but no limited to, contingency operations as defined in 10 U.S.C. 101(a)(13) or humanitarian or peacekeeping operations as defined in 10 U.S.C. 2302(7); (4) Contracting Officers in the conduct of emergency operations, such as responses to natural or environmental disasters or national or civil emergencies, e.g., Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121) (5) Contracts to support unusual or compelling needs (see 6.302-2).

(6) Awards made to foreign vendors for work performed outside the United States, if it is impractical to obtain SAM registration.

(7) Micro-purchases that do not use the electronic funds transfer (EFT) method for payment and are not required to be reported (see subpart 4.6).

Small Business Innovation Research (SBIR) - The Small Business Administration, Office of Technology administers the Small Business Innovation Research (SBIR) Program and the Small Business Technology Transfer (STTR) Program. Through these two competitive programs, SBA ensures that the nation's small, high-tech, innovative businesses are a significant part of the federal government's research and development efforts.

Small Disadvantaged Business (SDB) - The SBA administers a business assistance program for small disadvantaged businesses (SDBs) known as the Small Disadvantaged Business Certification Program. SDB certification strictly pertains to benefits in federal procurement. SBA certifies SDBs to make them eligible for special bidding benefits.

Service-Disabled Veteran-Owned Small Business (SDVOSB) – The term "small business concern owned and controlled by service-disabled veterans" shall mean a small business concern which is at least 51 percent owned by one or more service-disabled veterans; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more service-disabled veterans; and, whose management and daily business operations are controlled by one or more service-disabled veterans or, in the case of a veteran with permanent and severe disability, the spouse or permanent care-giver of such veteran.

Small Business Competitiveness Demonstration Program – This Program was established by the Small Business Competitiveness Demonstration Program Act of 1988, Public Law 100-656 (15 U.S.C. 644 note). The program is implemented by a joint OFPP and SBA Policy Directive and Implementation Plan, dated May 25, 1999. The program consists of two major components– (a) Unrestricted competition in designated industry groups; and (b) Enhanced small business participation in 10 agency targeted industry categories.

Socio Economic Categories – These categories identify certain contractor business characteristics, e.g., Women Owned Business, Small Disadvantages Business, Educational Institution, minority owned business.

Solicitation - Any request to submit offers or quotations to the government. Solicitations under sealed bid procedures are called “invitations for bids.” Solicitations under negotiated procedures are called “requests for proposals.” Solicitations under simplified acquisition procedures may require submission of either a quotation or an offer.

STTR – Small Business Technology Transfer Program. The Small Business Administration, Office of Technology administers the Small Business Innovation Research (SBIR) Program and the Small Business Technology Transfer (STTR) Program. Through these two competitive programs, SBA ensures that the nation's small, high-tech, innovative businesses are a significant part of the Federal Government's research and development efforts.

Veteran Owned Small Business Concern – This identifies a small business concern where 51 percent or more is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, 51 percent or more of the stock is owned by one or more veterans; and the management and daily business operations of which are controlled by one or more veterans.

Woman Owned Small Business Concern – This identifies a small business concern that is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent or more of the stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

APPENDIX C

INSTRUCTIONS FOR REPORTING REREPRESENTATION ACTIONS IN FPDS

When the contractor makes a rerepresentation in accordance with Federal Acquisition Regulation (FAR) Subpart 19.3 requirements, and its size status has changed, the contracting officer must-

1. Issue a contract modification (modifying the base award not the task/delivery order under a contract or call under an agreement) citing the rerepresentation and the change in size status;
2. Ensure the contract file documents the change in size status that the contractor has made in the On-line Representations and Certifications Application (ORCA); and
3. Submit a modification contract action report to FPDS.

The contracting officer must complete the contract action report as follows:

1. In order to report a rerepresentation action in FPDS and incorporate the latest contractor information from the System for Award Management (SAM) system, the "Reason for Modification" data element (12C) must be either
 - a. "Novation Agreement" (code J) - use this for reporting novation agreements, as they automatically include a rerepresentation requirement,
 - b. "Rerepresentation of Non-novated Merger Acquisition" (code P) - use this for reporting rerepresentations that result from merger/acquisition but do not require novation of the contract (see FAR 42.1204(b)), or
 - c. "Rerepresentation" (code R) - use this for reporting rerepresentations that result from growth or contraction of a business. This code is the one that should be used to report business size changes that do not result from either 1.a. or 1.b.
2. If the "Reason for Modification" (12C) is 1.a., 1.b., or 1.c. -
 - a. The data element "Contracting Officer's Selection of Business Size" (IIA) will be required to be completed. Choose "Small Business" (S) or "Other than Small Business" (O), as appropriate, to identify the rerepresented size status of the contractor.
 - b. All socioeconomic information will refresh from the contractor's record in SAM.
 - c. If 1.a. is chosen, the contractor's name and address will also refresh from SAM.
3. Complete the remainder of the data elements as they would be completed for any other contract action report.

APPENDIX D

REPORTING FUNDING ORGANIZATION DATA TO FPDS

In order to correctly report the DoD organizations for which contract actions are accomplished to FPDS, as is required in the system, federal contracting offices shall follow the instructions below for completing the FPDS contract action reports (CARs). These instructions apply to those requisitions received from DoD organizations that result in new contracts (e.g., DCAs, IDVs), purchase orders, and delivery/task/call orders.

1. Complete the FPDS data field 4D entitled “Program / Funding Office Code” with the Department of Defense Automatic Addressing Code (DoDAAC) identified on the purchase requisition (most often on a Military Interdepartmental Purchase Request (MIPR), Department of Defense Form 448) representing the requisitioner for the transaction. On a MIPR, this is NOT the Pay Office DoDAAC nor the Accounting Station DoDAAC identified in blocks 13 and 14 respectively. The requisitioner’s DoDAAC should be identified in block 8 with the identity of the organization providing the MIPR (note that it is often depicted as the first six characters of the MIPR number in block 5) or clearly identified on any other type of purchase requisition provided.
2. Complete the FPDS data field 4C entitled “Program / Funding Agency Code” with the code shown on the attached matrix that correctly corresponds to the DoDAAC being reported in the “Program / Funding Office Code” data field. This code should not be confused with similar codes that are often seen in a line of accounting or in block 14 of a MIPR.

Office of Management and Budget’s (OMB’s) Intergovernmental Transactions team’s draft Inter-Agency Agreement (IAA) template includes these data elements as required fields in the funding section of the document.

APPENDIX E

INSTRUCTIONS FOR TRANSFERRING A CONTRACT

TRANSFER ACTION – IDVs.

Below is the functionality of the FPDS when the ‘Transfer Action’ is chosen as the ‘Reason for Modification’ for an Indefinite Delivery Vehicles (IDVs) contract that is in final status. An Indefinite Delivery Contract (IDC) was used for this example. However, other IDVs will have the same functionality with the exception of Federal Supply Schedules. Only the Agency System Administrator has the privilege to create a ‘Transfer Action’ modification. However, the privilege can be delegated.

1. FPDS shall open only the following data elements on a ‘Transfer Action’ modification:

1. “Modification Number”
2. “Date Signed”
3. “Period of Performance Start Date”
4. “Last Date to Order”
5. “Contracting Office Agency ID”
6. “Contracting Office ID”
7. “Action Obligation”
8. “Base and All Options Value (Total Contract Value)”

2. The “Date Signed” on the ‘Transfer Action’ modification cannot be earlier than any of the prior modifications or the base document.

3. After the ‘Transfer Action’ is ‘Saved’, ‘Validated’ and ‘Approved’ the agency that is transferring the document will no longer be able to access it. The contract and all modifications prior to the “Transfer Action” will no longer be available to either the transferring or the receiving agency. Both agencies will be able to view the prior documents, but all function keys will be disabled. This ‘Transfer Action’ will never be allowed to be ‘Corrected’ or ‘Deleted’.

4. When the receiving agency opens the transferred document only the “Modify” function key will be enabled.

5. On clicking the ‘Modify’ button on the transferred document all of the fields will open and the validation rules will apply except for the “PIID”. The “PIID” fields will not open and the “PIID” validation rules will not apply. When the receiving agency executes this modification all of the fields will open except the “PIID” fields, unless the “Reason for Modification” was ‘Change PIID’. If the reason for modification is ‘Change PIID’ then the “PIID” fields will also open. The receiving agency shall be very careful to only enter the information that they require.

6. For contracts that have been transferred from a Civilian Agency to DOD the 90 days reveal rule shall apply from the date of the transfer action and any subsequent modifications that fall within that time period.

7. Once a 'Transfer Action' action has been successfully completed another 'Transfer Action' modification cannot be done on the same contract.

CHANGE PIID - IDVs

Below is the functionality of the FPDS when the 'Change PIID' is chosen as the "Reason for Modification" for an action that is in final status. An IDC was used for this example. However, other IDVs will have the same functionality.

1. The 'Change PIID' functionality is only available on actions that are in a final status. Only the Agency System Administrator has the privilege to create a 'Change PIID' modification. However, the privilege can be delegated.

FPDS shall open only the following data elements on a 'Change PIID' modification:

1. "PIID"
2. "Agency PIID ID"
3. "Modification Number"
4. "Date Signed"
5. "Contracting Office Agency ID"
6. "Contracting Office ID"

2. The user has to at least change the "PIID" or the "PIID Agency ID" when the "Reason for Modification" is 'Change PIID'.

3. The "Date Signed" on the 'Change PIID' modification cannot be earlier than any of the prior modifications or the base document.

4. When the 'Change PIID' is chosen as the "Reason for Modification" and is the first modification after a contract has been transferred, the "PIID" fields will open in addition to the rest of the fields and all the validation rules will fire including the ones for the "PIID". Effective April 1,2018, if the PIID is changed, the Uniform PIID Structure is required and the appropriate validation rules will fire.

5. A record in final status that has 'Change PIID' as the "Reason for Modification" cannot be corrected to change the "Reason for Modification" or the "PIID" fields. All other fields that are valid on the 'Change PIID' modification can be changed. A record in final status that has the "Reason for Modification" as 'Change PIID' cannot be deleted by the user. The record can only be deleted by data management. If a user attempts to delete a 'Change PIID' modification in final status the following message will be displayed, "A record that is in final status and has the "Reason for Modification" as 'Change PIID' cannot be deleted. Please contact your System Administration for further assistance".

6. If a mistake is made in one of the "PIID" fields on a 'Change PIID' modification, it cannot be corrected after the 'Draft' version has been saved. You will have to delete the 'Draft' document and create another 'Change PIID' modification.

7. Once a 'Change PIID' modification has been successfully completed another 'Change PIID' modification cannot be done on the same contract.

8. When the "PIID" and/or the "Agency PIID ID" are changed the new data will also be applied to all previous modifications and the base document. The old "PIID" will appear as a text identifier on the advance search when a search is done on the new "PIID". However,

you cannot search on the old “PIID”.

9. If the “PIID” was changed on a multiple award IDV and it is a “Referenced IDV ID” on a ‘Delivery Order’, the “Referenced IDV ID” will be changed on the base Delivery Order and all the mods to the delivery order which reference the IDV whose PIID has changed. This is also the case for a ‘BPA Call’ against a ‘BPA’.

TRANSFER ACTION – Awards

The functionality is no different when transferring a ‘Delivery Order’ than it is for an ‘IDC’ except that different fields open.

FPDS shall open only the following data elements on a ‘Transfer Action’ modification:

1. “Modification Number”
2. “Date Signed”
3. “Period of Performance Start Date”
4. “Completion Date”
5. “Est. Ultimate Completion Date”
6. “Contracting Office Agency ID”
7. “Contracting Office ID”
8. “Action Obligation”
9. “Base And Exercised Options Value”
10. “Base and All Options Value (Total Contract Value)”

CHANGE PIID - Awards

The functionality for a ‘Change PIID’ modification for a ‘Delivery Order’ is the same as for an IDV.

1. If the ‘Change PIID’ is the first modification after a ‘Delivery Order’ was transferred the “PIID” fields will open and all the fields that would normally open for a base ‘Delivery Order’ will also open. The fields in a ‘Delivery/Task Order’ that are populated from the “Referenced IDV” will not be available for change.
2. For actions that have been transferred from a Civilian Agency to DOD the 90 days reveal rule shall apply from the date of the transfer action and any subsequent modifications that fall within that time period.
3. If a mistake is made in one of the “PIID” fields on a ‘Change PIID’ modification, it cannot be corrected after the ‘Draft’ version has been saved. You will have to delete the ‘Draft’ document and create another ‘Change PIID’ modification. A record in final status that has the “Reason for Modification” as ‘Change PIID’ cannot be deleted by the user. The record can only be deleted by data management. If a user attempts to delete a ‘Change PIID’ modification in final status the following message will be displayed, “A record that is in final status and has the “Reason for Modification” as ‘Change PIID’ cannot be deleted. Please contact your System Administration for further assistance”.
4. If the “PIID” was changed on a multiple award IDV and it is a “Referenced IDV ID” on a ‘Delivery Order’, the “Referenced IDV ID” will be changed on the base Delivery Order and all the mods to the delivery order which reference the IDV whose PIID has changed. This is also the case for a ‘BPA Call’ against a ‘BPA’.

APPENDIX F

SYSTEM GENERATED DATA ELEMENTS

This appendix lists the data elements that are shown on the FPDS screen; however, the responses are system generated. Included in this appendix are screenshots that show the new data elements.

The following fields in FPDS are system generated and do not require any input from the user. The information contained in these data elements are based on the information that has either already been selected on the contract action or on the parent IDV document.

Data Element Name	System Generated	Source
Last Modified Date	Yes	Date of the Modification
Last Modified User	Yes	Based on User Credentials
Closed Status	Yes	Status will be 'Yes' or 'No'
Closed Status Date	Yes	Date the action was closed
Closed By	Yes	Based on User Credentials
Extent Competed For Referenced IDV:	Yes	Denotes the Extent Competed for the IDV
IDV Type of Set Aside	Yes	Reflects the Set Aside Value Selected by the user on the IDV.
Type of Set Aside Source	Yes	Denotes the origin of the Set Aside
IDV Number of Offers	Yes	Reflects the Number of Offers Selected by the user on the IDV.
Number of Offers Source	Yes	Denotes the origin of the Number of Offers

Below are the functions of the above System Generated Data Elements

Last Modified Date: This data element captures the Last Date that the field was edited, either by the user or the FPDS system.

Last Modified User: This data element captures the user who performed the changes that were captured on the last Modified Date.

Close Out Data Elements:

As outlined below, when a final record is selected, a Close Out button will be displayed. If the user selects this button the following system generated data elements will appear. This button does not appear on a draft or erred out record.

THE CLOSEOUT BUTTON AS SHOWN ON A FINALIZED CONTRACT ACTION

Closed Status: This data element displays a ‘Yes’ or ‘No’ which reflects if the action was Closed or not. The user can change the status when the Closed Out is selected from ‘Yes’ to ‘No’ before the Closed Out action is completed. Once the action is Closed Out, a Data Management will have to be done to change it.

Closed Status Date: This data element displays the date the record was selected to be closed.

Closed By: This data element displays the person who closed the action.

IDV Type of Set Aside, IDV Type of Set Aside Source: The screen below shows an example of a Delivery Order (DO) against a multiple award IDC. The IDC has the entry of No set aside used in the Type of Set Aside. Because the “Fair Opportunity” selected on the DO is ‘Competitive Set Aside’, the “Type of Set Aside” on the DO can be changed. In this case the entry was changed to Women Owned Small Business. The “Type of Set Aside Source” shows ‘This Action’. That means that the Set Aside entry is from the Delivery Order.
